

Slicer cutter

CR

The Pelamatic slicer allows you to leave the fruit ready for later use with little effort, becoming a very practical accompaniment for Pelamatic peelers. Its design allows it to be sliced by just one movement, making it very useful for preparation processes.

Our slicer comes with a special reinforcement to keep the piece immobile and facilitate cutting, avoiding wasted time and making the best use of the fruit.

Three models are available to suit your specifications.

General characteristics

- Strong, fast and efficient.
- Manual machine.
- Allows quick and safe cleaning by using warm water and a cloth. Recommended daily cleaning.
- Stainless steel pieces for a good hold of the fruit.
- Designed with a stainless steel structure.
- Advisable to facilitate the preparation processes in the Pelamatic peelers.
- Light and easily transportable.

Technical characteristics

Productivity	12 units/min aprox.	Net weight	5 kg - 5,32 kg Depending on model
Dimensions	Closed: 370 x 170 x 150 mm Open: 370 x 170 x 400 mm	Material	304 stainless steel
Cutting fruit size	125 mm	Number of slices	CR-7: 17 Slices max. CR-10: 12 Slices max. CR-17: 7 Slices max.
Slice thickness	CR-7: 7 mm CR-10: 10 mm CR-17: 17 mm
